t. D/OL			John:
1	-		Yes, the ExCom adopted the
2.			recommendations of the Scattergood
			Thorne Development Committee. But for the foreseeable future
3.			we are unlikely to be able to
			fund those recommendations. So
4.			at this time I would not spend a lot of effort on planning,
			master plans and A&E for that
5.			area.
			I would do the following:
6.			a. Stand firm on the decision which grows out of the
	1.		ExCom decision that the property
7.			will not be used for an intelli- gence museum.
•			b. Clear and clean up the
8.			property as is now being done so
<b>0</b> .	. ]		that it is park-like in a rustic
9.			sense.
<b>y.</b>			c. Survey and refence the property as is already underway.
	H TO	<b>V</b>	Get approval and raze the four
10.		1	or five old buildings which we have agreed are of little value.
11.	171	<del></del>	d. Get the "gardener's
11.			house" into livable condition.
		· ·	e. Get the manor house
12.			into shape so that it can be used as a VIP conference center.
12	<del>                                     </del>		f. Cut through an access
13.			road so that the manor house can
1			be approached from the area of the motor pool.

MEMORANDUM FOR:	Associate Deputy Director for Administration					
FROM:	John M. Ray Director of Logistics					
SUBJECT:	Implementing the Executive Committee's Decision to Adopt the Scattergood-Thorne Development Committee's Recommendations					
1. On 7 August 1987, the Executive Committee (ExCom) adopted the recommendations of the Scattergood-Thorne Development Committee to construct Logistics and Security support facilities adjacent to the Motor Pool; an employee recreational area; a parking structure adjacent to the South Road; and secure conference/training facilities which would include the existing manor house. This memorandum describes the next steps which could be undertaken if the Executive Committee wishes to fund the effort. The total estimated cost of this construction is \$60 million, spread over a three- to five-year development schedule.						
obtain National	t step in implementing the ExCom decision is to Capital Planning Commission (NCPC) approval of Master Plan. This would involve the ties:					
a. The Offices of Logistics (OL) and Security would define their requirements for the new support facilities. OL and the Office of Training and Education would define Agency requirements for a conference/training facility. The Offices of Personnel and Medical Services would define Agency requirements for an employee recreational facility. OL would define the requirements for a new parking structure. This effort would take an estimated two to six months.						
Statement of which would (A&E) firms contract to the Scatterg	ese requirements would be used to prepare the Work (SOW) in a Request for Proposal (RFP) be released to architectural and engineering for bids. An A&E firm would be awarded the update the Agency Master Plan to incorporate cood-Thorne development. This A&E selection take an estimated two to three months.					

CONFIDENTIAL Declassified in Part - Sanitized Copy Approved for Release 2011/11/14 : CIA-RDP89G00643R000800100001-7

OL 10316-87

25 <b>X</b> 1	SUBJECT: Implementing the Executive Committee's Decision to Adopt the Scattergood-Thorne Development Committee's Recommendations	
25 <b>X</b> 1	c. The selected A&E firm would develop and submit for Agency approval the revised Master Plan. Once approved, the plan would be submitted to the NCPC for coordination. This process would take an estimated six to nine months; the cost of the A&E firm is estimated to be \$300,000.	
25 <b>X</b> 1	d. The Master Plan revision should be concluded by Agency adoption of a master schedule which will stipulate the order in which new Scattergood-Thorne facilities are to be constructed and the budgetary amounts reserved each year for the project.	
25 <b>X</b> 1	3. The second step in implementing the ExCom decision would be to use the approved Master Plan and master schedule to prepare the SOW in an RFP which would be released to A&E firms for building design. The components of the Scattergood-Thorne development would be broken into separate building phases and individually designed and cost estimated. This A&E selection and design process would take an estimated 12 to 14 months: the cost of the A&E work is estimated to be \$3 to 4 million.	
25 <b>X</b> 1	4. From this point, any or all of the Scattergood-Thorne development components could be selected and built. The actual costs and durations of these components would be negotiated separately with the selected construction firms.	
25X1	5. OL is ready to implement the ExCom decision as soon as funding is provided. Please let me know when you wish to proceed with this effort.
